**Then God said,
“Let lights appear
in the sky to separate
the day from the night.
Let them be signs
to mark the seasons,

Tic Tac Toe

The object of the Tic Tac Toe game is to make three of your symbol in a row which wins the game. One player is designated marking an "X" into any of the 9 open squares of the board. The second player then takes a turn by marking an O into any of the other open squares that remain. This continues back-and-forth until one player wins the game by getting three in a row or the players fill all squares on the board without establishing a winner. This is a tie, also known as a "Cats" game.
